

CLINICAL PAYMENT AND CODING POLICY

If a conflict arises between a Clinical Payment and Coding Policy (CPCP) and any plan document under which a member is entitled to Covered Services, the plan document will govern. If a conflict arises between a CPCP and any provider contract pursuant to which a provider participates in and/or provides Covered Services to eligible member(s) and/or plans, the provider contract will govern. “Plan documents” include, but are not limited to, Certificates of Health Care Benefits, benefit booklets, Summary Plan Descriptions, and other coverage documents. BCBSTX may use reasonable discretion interpreting and applying this policy to services being delivered in a particular case. BCBSTX has full and final discretionary authority for their interpretation and application to the extent provided under any applicable plan documents.

Providers are responsible for submission of accurate documentation of services performed. Providers are expected to submit claims for services rendered using valid code combinations from Health Insurance Portability and Accountability Act (HIPAA) approved code sets. Claims should be coded appropriately according to industry standard coding guidelines including, but not limited to: Uniform Billing (UB) Editor, American Medical Association (AMA), Current Procedural Terminology (CPT®), CPT® Assistant, Healthcare Common Procedure Coding System (HCPCS), ICD-10 CM and PCS, National Drug Codes (NDC), Diagnosis Related Group (DRG) guidelines, Centers for Medicare and Medicaid Services (CMS) National Correct Coding Initiative (NCCI) Policy Manual, CCI table edits and other CMS guidelines.

Claims are subject to the code edit protocols for services/procedures billed. Claim submissions test subject to claim review including but not limited to, any terms of benefit coverage, provider contract language, medical policies, clinical payment and coding policies as well as coding software logic. Upon request, the provider is urged to submit any additional documentation.

Psychological and Neuropsychological Testing

Policy Number: CPCP008

Version 1.0

Enterprise Clinical Payment and Coding Policy Committee Approval Date: March 31, 2021

Effective Date: July 12, 2021 (Blue Cross and Blue Shield Of Texas Only)

Description

The purpose of this document is to clarify the payment policy for covered psychological and neuropsychological testing. Health care providers are expected to exercise independent medical judgment in providing care to patients.

Reimbursement Information:

Guidelines:

- Testing services must be provided or overseen by medical or mental health providers who are licensed in their state of practice to administer, score and interpret psychological testing.

- Claims should be submitted upon the completion of all testing related services rendered. This includes all activities related to pre-assessment planning, test administration, scoring, integration of data, report write up and feedback session. If testing takes place across multiple days, the claim should be submitted at the conclusion of all services.
- Testing comprised solely of brief symptom inventories or screening tests (paper and pencil or computerized) does not qualify as comprehensive psychological testing. When indicated, these services may be billed using brief assessment or automated testing CPT codes.
- CPT codes that are time based should not be billed concurrently with other time- based codes for the same service period. For example, if a provider is conducting a 60- minute therapy session and administers a Beck Depression Inventory during this session, the provider may bill a therapy code for the session along with a brief behavioral assessment code. Provider should not bill an additional half hour or one- hour duration testing CPT code since the time spent with the patient did not exceed 60 minutes.
- Psychological and neuropsychological testing base codes may only be used once per testing episode. If testing takes place across multiple days, the base code should only be used once at the start of the service episode.
- Providers performing comprehensive psychological or neuropsychological evaluations should not bill both psychological and neuropsychological evaluation codes for the same episode of service. Providers should decide whether the testing is predominantly psychological or neuropsychological and bill accordingly.
- Psychological and neuropsychological testing CPT codes 96130-96133, 96136-96139 should be billed when a provider is performing a comprehensive psychological or neuropsychological assessment. Unless followed by a comprehensive assessment, these codes should not be used when providing brief screenings or assessments to monitor patient progress during routine therapy sessions or psychiatric follow- up visits.
- CPT codes 96130-96133 may only be billed by a Qualified Healthcare Professional (QHP) who is independently licensed and contracted with BCBS. Individuals who are working or training under the supervision of the QHP are considered technicians.
- Approval for payment is only applicable to standardized tests that are based on published, national, normative data with scoring resulting in standardized or scaled scores.

Guidelines (cont'd):

- The following table summarizes expected timeframes for certain categories of evaluation and testing.

Type of Evaluation	Expected Timeframe
Neuropsychological evaluations (inclusive of time for administration, scoring, interpretation and report write- up)	8 hours
Psychological testing to determine readiness for a medical procedure (i.e. bariatric surgery, spinal cord stimulation)	3-4 hours
Psychological testing to diagnose uncomplicated Attention-Deficit/Hyperactivity Disorder (combination presentation, predominantly inattentive or hyperactive/ impulsive presentation). Neuropsychological testing for Attention Deficit/ Hyperactivity Disorder is indicated only when there is remarkable evidence of medical or neurological history.	3-4 hours

- Psychological or neuropsychological testing is limited to once per calendar year. More than one claim submission for testing per year may be subject to medical records and a medical necessity review.
- A minimum of 16 minutes must be provided to report a 30-minute code
- A minimum of 31 minutes must be provided to report any per-hour code
- For criteria and exclusions relating to psychological and neuropsychological testing please refer to Medical Policy PSY301.020. For specific test expected timeframes, refer to Appendix A.

The following procedural codes serve as guidelines for the billing of psychological and neuropsychological testing services:

Assessment of Aphasia and Cognitive Performance Testing	
96105	ASSESSMENT OF APHASIA
96125	COGNITIVE TEST BY HC PRO
Developmental /Behavioral Screening and Testing	
96110	DEVELOPMENTAL SCREEN W/SCORE (For an emotional /behavioral assessment, use 96127)
96112	DEVEL TST PHYS/QHP 1ST HR
+96113	DEVEL TST PHYS/QHP EA ADDL (List separately in addition to code for primary procedure)
96127	BRIEF EMOTIONAL/BEHAV ASSMT (For developmental screening, use 96110)

Guidelines (cont'd):

Psychological /Neuropsychological Testing	
Neurobehavioral Status Exam	
96116	NUBHVL XM PHYS/QHP 1ST HR
+96121	NUBHVL XM PHY/QHP EA ADDL HR
Test Evaluation Services	
96130	PSYCL TST EVAL PHYS/QHP 1ST
+96131	PSYCL TST EVAL PHYS/QHP EA
96132	NRPSYC TST EVAL PHYS/QHP 1ST
+96133	NRPSYC TST EVAL PHYS/QHP EA
Test Administration and Scoring	
96136	PSYCL/NRPSYC TST PHY/QHP 1ST
+96137	PSYCL/NRPSYC TST PHY/QHP EA
96138	PSYCL/NRPSYC TECH 1ST
+96139	PSYCL/NRPSYC TST TECH EA
Automated Testing and Result	
96146	PSYCL/NRPSYC TST AUTO RESULT

Appendix A

Catalog of Psychological and Neuropsychological Tests

This guide is intended as an aid for providers who administer psychological and neuropsychological testing. There may be other covered tests that are not on this list. Medical necessity as defined by the Psychological and Neuropsychological Testing Policy (PSY 301.020) must be established prior to testing. Test Administration and Scoring times were calculated using established Tests in Print guidelines and test publisher's guidelines. Additional time for Test Evaluation Services will be determined based on tests utilized and accompanying clinical data.

Test Name	Acronym	Type	Age	Time (inclusive of administration and
<i>Achenbach System of Empirically Based Assessment</i>	ASEBA	<i>Adaptive and maladaptive functioning</i>	1.5y - 90y+	<i>Preschool (1.5y - 5y)</i>
				<i>CBCL: 20 min, C-TRF: 10-15 min, TOF: 10 min</i>
				<i>School age (6y – 18y)</i>
				<i>CBCL, TRF, YSR (11y - 18y): 15-20 min,</i>
				<i>BPM: 1-2 min/form, DOF (6y - 11y): 30 min,</i>
				<i>SCICA: 1 h -1.5 h</i>
				<i>Adult (18y - 59y)</i>
<i>Adaptive Behavior Assessment System-3rd Ed</i>	ABAS-3	<i>Adaptive skills</i>	Birth - 89y	<i>20 min for all forms</i>
				<i>Parent /Primary Caregiver Form (Birth-5y) Parent Form (5y - 21y)</i>
				<i>Teacher/Day Care Form (2y - 5y)</i>
				<i>Teacher Form (5y - 21y)</i>
				<i>Adult Form (16y - 89y)</i>
<i>Adaptive Behavior Diagnostic Scale</i>	ABDS	<i>Adaptive skills</i>	2y - 21y	30 min
<i>ADHD Comprehensive Teachers Rating Scale-2nd Ed.</i>	ACTeRS	<i>Attention Disorder (with or without hyperactivity)</i>	Grades K- Adult	<i>10-15 min for all forms</i>
				<i>ACTeRS Teachers Form (K-8th grade)</i>
				<i>ACTeRS Parent Form</i>
				<i>ACTeRS Self Report, (adolescent-adult)</i>
<i>ADHD Rating Scale-IV</i>	ADHD-IV	ADHD	5y - 18 y	15 min

Catalog of Psychological and Neuropsychological Tests

This guide is intended as an aid for providers who administer psychological and neuropsychological testing. There may be other covered tests that are not on this list. Medical necessity as defined by the Psychological and Neuropsychological Testing Policy (PSY 301.020) must be established prior to testing. Test Administration and Scoring times were calculated using established Tests in Print guidelines and test publisher's guidelines. Additional time for Test Evaluation Services will be determined based on tests utilized and accompanying clinical data.

Test Name	Acronym	Type	Age	Time (inclusive of administration and scoring)
Neuropsychological Screening Test				
Structured Interview of Reported Symptoms-2 nd Ed.	SIRS-2	Psychiatric symptoms	>18y	30-40 min
Substance Abuse Subtle Screening Inventory-4	SASSI-A2 (Adolescent)	Substance Abuse	12y - 18y	15 min
Substance Abuse Subtle Screening Inventory-4	SASSI-4 (Adult)	Substance Abuse	18y-73y	15 min
Substance Use Disorders Diagnostic Schedule-5	SUDDS-5	Substance abuse	adults	35-45 min
Suicide Probability Scale	SPS	Suicide risk	>14y	5-10 min
Symbol Digit Modalities Test	SDMT	Cerebral dysfunction	>8y	<5 min
Symptom Assessment- 45 Questionnaire	SA-45	Psychiatric symptoms	>13 y	10 min
Symptom Checklist-90-Revised	SCL-90-R	Psychological symptoms	>13y	12-15 min
Tactile Performance Test	TPT	Complex psychomotor ability	5y - 90 y	10-15 min per trial. Max of 3 trials.
Test of Auditory Processing Skills, Third Edition	TAPS-3	Auditory processing	4y - 18y	1 hour

Catalog of Psychological and Neuropsychological Tests

This guide is intended as an aid for providers who administer psychological and neuropsychological testing. There may be other covered tests that are not on this list. Medical necessity as defined by the Psychological and Neuropsychological Testing Policy (PSY 301.020) must be established prior to testing. Test Administration and Scoring times were calculated using established Tests in Print guidelines and test publisher's guidelines. Additional time for Test Evaluation Services will be determined based on tests utilized and accompanying clinical data.

Test Name	Acronym	Type	Age	Time (inclusive of administration and scoring)
Tell Me a Story	TEMAS	Apperception test	5y - 18 y	45-60 minutes (short form); 120 minutes (long form)
Tennessee Self- Concept Scale, Second Edition	TSCS:2	Self-concept	7y - 90y	10-20 min
Test of Everyday Attention	TEA	Attention skills	18y - 80 y	45-60 min
Test of Everyday Attention-for Children	TEA-ch	Attention skills	6y-16y	55-60 min
Test of Memory and Learning-2nd Ed.	TOMAL-2	Memory assessment	5y - 60 y	Core battery - 30 minutes; with core battery plus supplementary - 60 minutes
Test of Memory and Learning-Senior Edition	TOMAL-SE	Memory assessment	55y - 89y	25-35 min
Test of Memory Malingering	TOMM	Malingering	16y - 84y	15-20 min
Test of Nonverbal Intelligence-4thEd.	TONI-4	Intelligence, aptitude, abstract reasoning and problem solving	6y - 89y	15-20 min
Test of Premorbid Functioning	TOPF	Pre-morbid functioning	16y-90y	<10 min
Test of Variables of Attention (version 9)	TOVA	Attention and impulse control	4y - 80+y	15-30 min
Test of Visual- Motor Skills, 3 rd Ed.	TVMS-3	visual-motor skills	3y - 90y+	20-30 min
Test of Visual Perceptual Skills-3 rd Ed.	TVPS-3	Visual perceptual strengths and weaknesses	4y - 18 y	20-30 min

Medical necessity as defined by the Psychological and Neuropsychological Testing Policy (PSY 301.020) must be established prior to testing. Test Administration and Scoring times were calculated using established Tests in Print guidelines and test publisher's guidelines. Additional time for Test Evaluation Services will be determined based on tests utilized and accompanying clinical data.

Test Name	Acronym	Type	Age	Time (inclusive of administration and scoring)
Thematic Apperception Test	TAT	Projective	>4y	Varies
Token Test for Children-2 nd Ed.	TTFC-2	Receptive language	3y - 12y	10-15 min
Tower of London-Drexel University-2 nd Ed.	TOLDX 2 nd Ed.	Executive functions	7y - 80y	10-15 min
Trauma and Attachment Belief Scale	TABS	Impact of trauma	<9y	10-15 min
Trauma Symptom Checklist for Children	TSCC	Evaluate acute and chronic posttraumatic symptomatology	8y - 16y	15-20 min
Trauma Symptom Checklist for Young Children	TSCYC	Evaluate acute and chronic posttraumatic symptomatology	3y - 12y	Less than 20 min
Trauma Symptom Inventory-2	TSI-2	Acute and chronic posttraumatic symptomatology	>18y	20 min
Vanderbilt Assessment Scales	NA	ADHD	6y - 12 y	10 min
Vineland Adaptive Behavior Scales-3 rd Ed.	Vineland-3	Adaptive behavior and self sufficiency	Birth - 90y	20 minutes for Interview Form; 10 minutes for Parent/Caregiver and Teacher Forms
Wechsler	WASI-II	Intelligence	6y - 90y	4 subtests- 30 min
Abbreviated Scale of Intelligence-2 nd Ed.				2 subtests- 15 min

Medical necessity as defined by the Psychological and Neuropsychological Testing Policy (PSY 301.020) must be established prior to testing. Test Administration and Scoring times were calculated using established Tests in Print guidelines and test publisher's guidelines. Additional time for Test Evaluation Services will be determined based on tests utilized and accompanying clinical data.

Test Name	Acronym	Type	Age	Time (inclusive of administration and scoring)
Wechsler Adult Intelligence Scale-4 th Ed.	WAIS-IV	Intelligence	16y - 90y	60-90 minutes for core subtests
Wechsler Individual Achievement Test- 3 rd Ed.	WIAT-III	Achievement	4y - 50y	Varies by grade level and number of subtests administered
Wechsler Intelligence Scale for Children- 4 th Ed.	WISC-IV	Intellectual ability	6y - 16 y	Core subtests: 60-90 minutes
Wechsler Intelligence Scale for Children-5 th Ed.				
Wechsler Memory Scale-4 th Ed.	WMS-IV	Memory	16y - 90 y	Adult battery- 80-115 min Older Adult Battery- 50-70 min
Wechsler Memory Scale -III Abbreviated	WMS-III Abbreviated	Adult memory	16y - 89 y	30 min
Abbreviated				
Wechsler Nonverbal Scale of Ability	WNV	Nonverbal measure of memory	4y - 21y	Full battery: 45 minutes; Brief version: 15-20 minutes
Wechsler Pre-School and Primary Scale of Intelligence- 4 th Ed.	WPPSI-IV	Intelligence	2.5y - 7y	Core Subtests: Ages 2:6 to 3:11: 30-45 Minutes, Ages 4:0 to 7: 45-60 Minutes
Wechsler Test of Adult Reading	WTAR	Pre-morbid intellectual functioning	16y - 89y	5-10 min
Wide Range Achievement Test, 5 th Ed.	WRAT5	Reading, spelling, and math	5y - 85y	Approximately 15-25 minutes for ages 5-7 and 35- 45 minutes for ages 8 and up
Wide Range				
Wide Range	WRAML-2	Memory functioning	5y - 90y	Less than 1 hour for the Core Battery

Catalog of Psychological and Neuropsychological Tests
